SKILLS

Git | Python | SQL | Docker | MySQL | JavaScript | Postman | HTML | Bootstrap | Project Management | PHP

MY SKILL

OOP C++, C# and JAVA | Database: MySQL, SQL | DATA STRUCTURE | C, C++
C# | HTML e CSS (Basico) | Linux | AWS | Github

HONOURS AND AWARDS

01/02/2023 University of engineering and technology mardan

Deans list

I am proud to share that I have been recognized as a recipient of the Dean's List award for achieving a high GPA in my academic studies. This recognition serves as a testament to my dedication and hard work towards my education. I am grateful for the support of my professors and peers who have helped me achieve this honor. Moving forward, I will continue to strive for academic excellence and pursue my educational goals with the same level of diligence and commitment.

PROJECTS

01/01/2025 – 07/01/2025

Weather Web Page

Write here the description...Designed a weather info dashboard using HTML, CSS, JS, and API integration

Link <https://github.com/taseeer/Weather-Forecast>

10/02/2025 – 10/03/2025

TravelBus-Scraper

Extracted real-time data from ticket booking websites using Python (requests, BeautifulSoup)

Link <https://github.com/taseeer/TravelBus-Scraper>

11/01/2024 – 07/03/2025

School Management System

Designed and developed a user-friendly School Management System using **PHP**, **MySQL**, **HTML**, **CSS**, and **JavaScript**. The system focuses on simplifying key administrative tasks, including:

- Handling student admissions

- Managing student records
- Organizing subjects and class assignments
- Managing and publishing student results

This project aimed to create a streamlined and efficient tool for educational institutions to manage academic data with ease and accuracy.
